DEERFIELD, Ill., 28 October 2015 - Walgreens Boots Alliance, Inc. (Nasdaq: WBA) today announced financial results for fiscal year and fourth quarter 2015 that ended 31 August 2015.

Executive Vice Chairman and CEO Stefano Pessina said, "We are pleased with our progress and performance in the fourth quarter and in our first fiscal year since launching Walgreens Boots Alliance. While we have much work to do and operate in some challenging markets, we are excited and energized by the outlook and opportunities ahead as we put in place our strategies for long-term, sustainable growth. We believe we can shape the future of health care around the world through our ability to bring global solutions to local communities, benefiting all participants, populations and stakeholders."

Overview of Fiscal Year and Fourth Quarter Results In fiscal 2015, GAAP net earnings attributable to Walgreens Boots Alliance increased 118.4 percent to \$4.2 billion compared with the same period a year ago, while GAAP net earnings attributable to Walgreens Boots Alliance per diluted share increased 100 percent to \$4.00 compared with the same period a year ago.

Adjusted net earnings attributable to Walgreens Boots Alliance for fiscal year 2015 increased 28.9 percent to \$4.1 billion compared with the same period a year ago. Adjusted net earnings attributable to Walgreens Boots Alliance per diluted share for fiscal year 2015 increased 18.3 percent to \$3.88 compared with the same period a year ago. Earnings adjustments in fiscal year 2015 were a net reduction of GAAP net earnings attributable to Walgreens Boots Alliance of \$135 million or \$0.12 per diluted share. (Please see the "Reconciliation of Non-GAAP Financial Measures" table and accompanying disclosures at the end of this press release for more detailed information regarding non-GAAP financial measures herein, including the items reflected in adjusted net earnings calculations.)

Net sales in fiscal year 2015 increased 35.4 percent to \$103.4 billion compared with the same period a year ago.

Fiscal 2015 fourth quarter net earnings attributable to Walgreens Boots Alliance determined in accordance with GAAP were \$26 million compared with a loss of \$221 million in the same quarter a year ago, while GAAP net earnings attributable to Walgreens Boots Alliance per diluted share were \$0.02 compared with a loss of \$0.23 in the same quarter a year ago.

Adjusted fiscal 2015 fourth quarter net earnings attributable to Walgreens Boots Alliance increased 30.1 percent to \$969 million compared with the same quarter a year ago. Adjusted net earnings attributable to Walgreens Boots Alliance per diluted share for the quarter increased 14.3 percent to \$0.88 compared with the same quarter a year ago. Fiscal 2015 fourth quarter earnings adjustments were a net increase of GAAP net earnings attributable to Walgreens Boots Alliance of \$943 million or 86 cents per diluted share.

Net sales in the fourth quarter increased 49.7 percent to \$28.5 billion compared with the same quarter a year ago, largely due to the inclusion of Alliance Boots consolidated results.

Combined net synergies for fiscal 2015 were \$799 million. This includes \$81 million classified as synergies in the fourth quarter which related to activities commencing in prior fiscal years. The company continues to expect to reach at least \$1.0 billion in combined net synergies in fiscal 2016. This excludes the synergy benefits related to the company's strategic, long-term relationship with AmerisourceBergen and the benefits of refinancing the legacy Alliance Boots indebtedness at a lower cost.

Walgreens Boots Alliance generated free cash flow of \$4.4 billion in the fiscal year and \$1.1 billion in the quarter. GAAP operating cash flow totaled

\$5.7 billion in the fiscal year and \$1.5 billion in the quarter.

Company Outlook The company today introduced guidance for fiscal year 2016 with anticipated adjusted net earnings per share attributable to Walgreens Boots Alliance of \$4.25 to \$4.55 on a diluted basis. This guidance assumes no material accretion from the agreement to acquire Rite Aid (as covered separately yesterday), which is expected to close in the second half of calendar 2016, but reflects an adverse impact on adjusted earnings per share due to the suspension of the balance of the company's \$3 billion share repurchase program to partly fund the transaction.

Restructuring Program The company previously announced a \$1.5 billion cost transformation program through the end of fiscal year 2017, primarily in its Retail Pharmacy USA division, to restructure and invest in the company's future in a way that is better for customers and simpler for employees, resulting in a faster and more agile company. During the fourth quarter of fiscal 2015, the company continued to make good progress with the program and has achieved more than half of the program's expected savings as of the end of the fiscal year. In the Retail Pharmacy USA division, this effort included: closing 75 stores in the quarter for a total of 84 store closings in fiscal year 2015 as part of a plan to close approximately 200 stores; reorganizing divisional and field operations; driving operating efficiencies; and streamlining information technology and other functions. Actions taken in the quarter resulted in pre-tax charges to the company's GAAP financial results in the quarter of \$382 million (\$179 million in real estate costs, \$120 million in asset impairments and \$83 million in severance and other business transition and exit costs, with \$372 million recorded in the Retail Pharmacy USA division and \$10 million in real estate costs and \$117 million in severance and other business transition costs and exit costs, with \$523 million recorded in the Retail Pharmacy USA division and \$19 million recorded in the Retail Pharmacy International division).

Business Segment Highlights Retail Pharmacy USA: The Retail Pharmacy USA division, whose principal retail pharmacy brands are Walgreens and Duane Reade, had fiscal year 2015 total sales of \$81.0 billion, an increase of 6.0 percent over the previous fiscal year. Total sales in comparable drugstores (those open at least a year) increased 6.4 percent compared with the previous year. Comparable retail sales increased 1.5 percent in the fiscal year, with an increase in basket size partially offset by lower customer traffic compared with the previous fiscal year.

Pharmacy sales, which represented 66.1 percent of division total sales in fiscal year 2015, increased 8.2 percent compared with the previous year, while comparable pharmacy sales increased 9.3 percent. The division filled 894 million prescriptions (including immunizations) on a 30-day adjusted basis in the fiscal year, an increase of 4.4 percent over the previous year. Prescriptions filled in comparable stores increased 4.6 percent compared with the previous year. For the year ending 31 August 2015, the division's retail prescription market share in the USA on a 30-day adjusted basis increased approximately 20 basis points over the year-ago period to 19.1 percent, as reported by IMS Health.

GAAP operating income in fiscal year 2015 decreased 7.2 percent over the year-ago period to \$3.9 billion. Adjusted operating income in fiscal year 2015 increased 4.8 percent over the year-ago period to \$5.1 billion.

Fourth quarter total sales for the Retail Pharmacy USA division were \$19.9 billion, an increase of 4.7 percent over the year-ago quarter. Total sales in comparable drugstores increased 6.5 percent compared with the same quarter a year ago. Comparable retail sales increased 0.4 percent in the fourth quarter with an increase in basket size partially offset by lower customer traffic compared with last year's fourth quarter.

Pharmacy sales, which accounted for 67.4 percent of division total sales in the quarter, increased 6.6 percent compared with the year-ago quarter, while comparable pharmacy sales increased 10.0 percent. The division filled 222 million prescriptions (including immunizations) adjusted to 30-day equivalents in the quarter, an increase of 4.6 percent over last year's fourth quarter. Prescriptions filled in comparable stores increased 5.1 percent compared with the same quarter last year. For the quarter ending 31 August 2015, the division's retail prescription market share in the USA on a 30-day adjusted basis increased approximately 20 basis points over a year ago to 19.1 percent, as reported by IMS Health.

GAAP operating income in the fiscal 2015 fourth quarter decreased 48.2 percent over the year-ago quarter to \$511 million. Adjusted operating income in the fourth quarter decreased 10.1 percent over the year-ago quarter to \$1.1 billion. The decrease in adjusted operating income primarily resulted from having no equity earnings in Alliance Boots in the current period versus three months in the comparable period.

The 2015 fiscal year (for periods subsequent to 31 December 2014) and fourth quarter for the Retail Pharmacy USA division include results of operations, the allocation of synergy benefits including Walgreens Boots Alliance Development GmbH (WBAD) and an allocation of combined corporate costs. The 2014 fiscal year and quarter included all corporate costs of Walgreen Co., the full consolidated results of WBAD and equity income from Walgreen Co.'s pre-closing 45 percent interest in Alliance Boots.

As of 31 August 2015, the division operated 8,173 drugstores across all 50 states, the District of Columbia, Puerto Rico and the US Virgin Islands, a net decrease of 34 stores since the end of the prior fiscal year.

Retail Pharmacy International: The Retail Pharmacy International division, whose principal retail brands are Boots in the UK, Thailand, Norway, the Republic of Ireland and The Netherlands, Benavides in Mexico and Ahumada in Chile, had total sales of \$8.8 billion in the fiscal year since the 31 December 2014 combination. On a pro forma constant currency basis, comparable store sales in the fiscal year since 31 December 2014 increased 3.6 percent compared with the same period a year ago. GAAP operating income for the fiscal year was \$409 million, while adjusted operating income was \$616 million.

Fourth quarter total sales for the Retail Pharmacy International division were \$3.5 billion. On a pro forma constant currency basis, comparable store sales in the fourth quarter increased 4.3 percent compared with the same period a year ago. GAAP operating income was \$196 million, while adjusted operating income was \$242 million.

As of 31 August 2015, the division operated 4,582 pharmacy-led health and beauty retail stores in eight countries, a net increase of 20 stores since 31 December 2014.

Pharmaceutical Wholesale: The Pharmaceutical Wholesale division, which mainly operates under the Alliance Healthcare brand, had total sales of \$15.3 billion in the fiscal year since 31 December 2014. On a pro forma constant currency basis, sales in the fiscal year since 31 December 2014 increased 1.8 percent compared with the same period a year ago. GAAP operating income for the period was \$376 million, while adjusted operating income was \$450 million.

Fourth quarter total sales for the Pharmaceutical Wholesale division were \$5.8 billion. On a pro forma constant currency basis, sales increased 5.0 percent compared with the same period a year ago. GAAP operating income was \$133 million, while adjusted operating income was \$158 million.

Comparability of Results Walgreens Boots Alliance has organized its operations and reports results in three segments: Retail Pharmacy USA, Retail Pharmacy International and Pharmaceutical Wholesale. Segmental reporting includes the allocation of synergy benefits, including WBAD's results, and the combined corporate costs for periods subsequent to 31 December 2014. The company has determined that it is impracticable to allocate historical results to the current segmental presentation.

Following the combination, the company eliminated the three-month reporting lag and recast prior period results with no lag. The combination on 31

December 2014 also means fiscal year 2015 reporting includes the results of Alliance Boots for eight months (January through August 2015) on a fully consolidated basis and four months (September through December 2014) as equity income from Walgreen Co.'s pre-closing 45 percent interest.

The company's balance sheet reflects the full consolidation of Alliance Boots assets and liabilities as a result of the close of the combination on 31 December 2014. The company's purchase accounting remains preliminary as contemplated by U.S. generally accepted accounting principles (GAAP) and, as a result, there may be upon further review future changes to the value, as well as allocation, of the acquired assets and liabilities, associated amortization expense, goodwill and the gain on the previously held equity interest.

Year-over-year comparisons of results require consideration of the foregoing factors and are not directly comparable.

Conference Call Walgreens Boots Alliance will hold a one-hour conference call to discuss the fourth quarter results and yesterday's acquisition announcement beginning at 8:30 a.m. Eastern time today, 28 October 2015. The conference call will be simulcast through the Walgreens Boots Alliance investor relations website at: http://investor.walgreensbootsalliance.com. represent residual cash flows available for discretionary expenditures as the measure does not deduct the payments required for debt service and other contractual obligations or payments for future business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our entire statements of cash flows.

(1) Free cash flow is defined as net cash provided by operating activities in a period minus additions to property, plant and equipment (capital expenditures) made in that period. This measure does not

represent residual cash flows available for discretionary expenditures as the measure does not deduct the payments required for debt service and other contractual obligations or payments for future business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our entire statements of cash flows.
